

Iyengar Yoga Certification in Canada

Becoming an Iyengar Yoga teacher begins with a long term and dedicated practice. After applying for and being accepted into a teacher-training program endorsed by Sri B.K.S. Iyengar, the rigorous teacher-training process, which can take up to five years begins. An assessment process, overseen by a national association to international standards, follows where candidates are carefully observed and evaluated. After passing two levels of assessment teachers are able to display the Certification Mark demonstrating a commitment to maintaining the purity, excellence and high standards of Iyengar Yoga. Look for the Mark.
